

Joint Voice Clinic

**Keep losing
your voice?**

**Find it a strain
to speak?**

We can help.

A one stop service for patients with voice problems which helps to give you a diagnosis and a treatment plan from a team of experts.

Is this for me?

If you experience hoarseness or a change to your voice lasting 3 weeks or more, ask your GP for a referral.

What are the benefits?

One stop shop to assess your voice problem and plan treatment

State of the art precision stroboscopy equipment for your examination: improved visualisation of your vocal cords, and see them for yourself!

Access both specialists (Medical Ear, Nose & Throat Specialist and Speech and Language Therapist)

Discuss your treatment options and answer your questions

Achieve your treatment outcome sooner

Recent comments:

“It was good to have the 2 specialists there to ask questions and that family could also be present”

“The clinic ensures clear explanation of diagnosis”

“The clinic helped me to understand my voice problem”
