Halton	National	CQUIN 1c Improving the uptake of flu vaccinations for front line staff within Providers	<p>Improving the uptake of flu vaccinations for frontline clinical staff :</p> <p>Year 1 - Achieving an uptake of flu vaccinations by frontline clinical staff of 70%</p> <p>Year 2 - Achieving an uptake of flu vaccinations by frontline clinical staff of 75%</p> <p>Number of front line healthcare workers (permanent staff and those on fixed contracts) who have received their flu vaccination by February 28th 2018.</p>	Janet Rawlings	At the end of Q3 46.7% of frontline staff in Warrington had been vaccinated. The programme continued into Q4 when final results will be available	
Halton	National	CQUIN 8b Supporting Proactive and Safe Discharge – community providers	<p>Year 1 17/18</p> <ul style="list-style-type: none"> Part a) 60% of weighting for this measure 	J Grundy	At the end of Q3 the discharge data was not available from the acute sector to be able to determine whether the increase in discharges of patients in their own home within 7 days was achieved. Work continues with Warrington and Halton Hospital Trust to streamline pathways and support discharges	

Borough	National/Regional/Local	Indicator	Indicator description	Lead	Progress to date	RAG rating
			<p>Actions to map existing discharge pathways, roll-out new protocols, collect baseline/trajectories</p> <ul style="list-style-type: none"> Part b) 40% of weighting for this measure Increasing proportion of patients admitted via non-elective route discharged from acute hospitals to their usual place of residence within 7 days of admission by 2.5% points from baseline (Q3 and Q4 2016/17). Inappropriate, early discharge carries risks to patients and therefore providers and commissioners should carefully monitor readmission rate. <p>Year 2 18/19</p> Part a) 100% of weighting for this measure Increasing proportion of patients admitted via non-elective route discharged from acute hospitals to their usual place of residence 		at the earliest opportunity.	

Borough	National/Regional/Local	Indicator	Indicator description	Lead	Progress to date	RAG rating
			within 7 days of admission by 7.5% points from 2017/18. Inappropriate, early discharge carries risks to patients and therefore providers and commissioners should carefully monitor readmission rate.			
Halton	National	CQUIN 10 Improving the assessment of wounds	The indicator aims to increase the number of wounds which have failed to heal after 4 weeks that receive a full wound assessment.	J Tudor	At the end of Q3 all actions in place and on track to complete audit for Q4	
Halton	National	CQUIN 11 Personalised care and support planning	This CQUIN aims to embed personalised care and support planning for people with long-term conditions. Year 1: Focuses on agreeing and putting in place systems and process to ensure that the relevant patient population can be identified, the relevant workforce receive appropriate training and that personalised care and support planning conversations can be incorporated into consultations	J Grundy	At the end of Q3: 100% of identified staff trained, A cohort and baseline data has been identified and is on track	

Borough	National/Regional/Local	Indicator	Indicator description	Lead	Progress to date	RAG rating
			with patients and carers Year 2: Focuses more on delivery of personalised care and support planning, the quality of conversations and impact on the individual levels of knowledge, skills and confidence
